PROFILE

“Powering India's Mining Future with Precision,
Performance & Purpose”

About US

HHPL, incorporated in year 2010, with its head office at Kolkata, specializes in large-scale coal mining contracting and allied services across the country. With successful performance under various government and private sectors, HHPL has established itself as a mine owner's reliable partner for efficient and timely project execution.

Over the years, HHPL diversified through strategic ventures into Hilltop Energy Pvt. Ltd., a fully owned "Mine Developer cum Operator" catering to the underground coal mining operation requirements of "Chinakuri underground coal mines of Eastern Coal fields" and "Kharkharee Coal Mines of Bharat Coking Coal Limited".

HHPL enjoys order book over ₹1600 crore and operates a fleet comprising over 250 units of heavy equipment.

Under the innovative leadership of Shri Alope Agarwal & Shri Navin Kumar Tulsyan, HHPL is the flagship company of the Hilltop Group, comprising other vibrant sister companies such as HILLTOP ENERGY, INNOVATIVE MINING, MINOP and BDEPL.

Vision

To be India's most reputed and progressive mining solutions provider through excellence via technology, sustainability, and an unwavering commitment to operational and environmental integrity.

Mission

It is focused on driving growth with sustainability, safety, and superior value creation for all stakeholders through effective mining operations, community empowerment, and industry diversification.

Hilltop Services

Overview of Services

Hilltop provides an integrated suite of mining, excavation, transportation, and project management services to support end-to-end operations for large industrial clients. With advanced equipment, skilled manpower, and integrated planning capabilities, the company guarantees efficient project delivery with reduced operational risks and seamless execution in diversified mining and earth-moving environments.

Plant & Equipment

Overview of Plant & Equipment

Hilltop operates one of the region's largest privately-owned fleets of heavy earthmoving machinery, fitted with the latest models from leading global brands like Volvo, Caterpillar, Komatsu, L&T, and Mahindra. This strong asset base ensures continuous performance, quick response ability, and productivity unparalleled in the industry for all mining and earthmoving projects.

Major Equipment Includes

- Excavators (Volvo EC480DL, EC750, EC950, CAT 350, Komatsu 500 & more)
- Dump Trucks & Tippers (Volvo FMX series, CAT 777E, Komatsu 785, Tata Signa range)
- Dozers: CAT D8R, D6R, L&T D85SS, Shantui DH17B2
- Payloaders (Volvo L120F, CAT 950H, L&T 9020)
- Motor Graders: CAT 120K2, 140K2, Komatsu GD series
- Water Tankers, Diesel Tankers & Service Vans
- Hydra Cranes & Support Vehicles
- Over 250 machines in total-own service teams for maintenance

Core Services

- Mining & Excavation
- Overburden Removal
- Coal Extraction & Loading
- Transportation & Logistics
- Ash Handling
- Site Development & Infrastructure Works
- Operation & Maintenance (O&M) Support
- Material Handling
- MDO / Project Management Services

Hilltop Financial Performance

Financial Performance Overview

Throughout the last five years, Hilltop has shown remarkable financial resilience and year-on-year growth because of continually acquiring projects, efficiency in operations, and strong banking partnerships. The low debt-equity structure and high asset ownership provide healthy liquidity and a robust order book, securing long-term business stability.

Overview of Key Financial Highlights

Strong YoY revenue growth through continued project wins in CIL subsidiaries

Backed by SBI, HDFC, and ICICI Bank consortium banking support

Low indebtedness structure to guarantee high liquidity

Robust asset base powered by self-owned HEMM fleet

Current order book of ₹ 1,649.38 Cr for the next 2–3 years

Sister Companies

Sister Companies Overview

The diversified business model of Hilltop Group reflects the commitment of the group towards long-term growth, technology advancements, and value creation across the industry. Through sister companies, it also extends into explosive manufacturing, and underground mining technologies to give strength to its presence across India's industrial, construction, and mining value chains.

Sister Companies List

Black Diamond Explosives Pvt. Ltd.

Minop Innovative Technologies Pvt. Ltd.

Hilltop Energy Pvt Ltd

Innovative Mining Projects Pvt Ltd

Black Diamond Explosives Pvt. Ltd.

Black Diamond Explosives Summary

Black Diamond Explosives Pvt. Ltd. specializes in the manufacture of high-performance industrial explosives for safe, efficient blasting applications in mining and infrastructure sectors. With modern production systems and stringent quality controls, the company ensures reliable explosive solutions that enhance productivity while maintaining the highest safety standards.

Products / Services

Bulk Emulsion Explosives

Cartridge Explosives (Small & Large Diameter)

Detonators & Initiation Systems

On-site Technical Blasting Support

Hilltop Energy Pvt. Ltd.

We have been awarded MDO project Kharkharee UG Mine on revenue sharing basis. Kharkharee Colliery is under administrative control of BCCL, Govindpur area, Dhanbad.

Description of work	Location of the Project	Minimum Extractable Coal Reserve(MT)	Duration of the Contract
Re-opening, development and operation for extraction of coal and delivery there of to the Authority on Revenue Sharing basis.	Govindpur Area Under BCCL, Dhanbad	25.70 MT	25 Years

Mining Services – Underground

- Preparation of DPR and Mining Plan
- Preparation/Approval of TOR for obtaining EC from the concerned Ministry
- Preparation and submission of application to CCO for reopening of seam & grade declaration
- Obtaining other necessary permission to start the mine

Innovative Mining Projects Pvt Ltd

MDO Project namely Chinakuri UG Mine (including Chinakuri Mine No.1, Chinakuri Mine No.3 and Dubeswari Colliery) has been awarded to Innovative Mining project on Revenue sharing basis for 25 years to achieve a minimum 1.00 million Tonne peak rated production.

Chinakuri UG is located in the South Western part of the Raniganj Coalfields under the administrative control of Sodepur Area of ECL, in the Paschim Burdwan district of West Bengal State. The pits of the colliery are situated on the northern side of Damodar River, whereas the workings of the colliery extend to the south of the river as well.

The total estimated Project life is around 25 years for extraction of minimum 16.70 MT extractable coal reserve from seam R-IV and seam R-VIII. The first 2 years shall be construction period cum development for widening and heightening & remaining 23 years consider as peak production period.

Description of work	Location of the Project	Minimum Extractable Coal Reserve(MT)	Duration of the Contract
Re-open, salvage, rehabilitate, develop and operate for excavation/ extraction of coal and delivery thereof to the Authority	Sodepur Area of ECL Paschim Burdwan District of West Bengal	16.70 MT	25 Years

Minop Innovative Technologies Pvt. Ltd.

EXPERTISE

- ☑ MINOP has expertise in all types of UG coal mining services.
 - Shaft Sinking & Incline Drivage
 - Geological Investigation
 - Mine Planning
 - DPR preparation
- ☑ It has developed technology for maximum extraction in geologically challenged depillaring operations.
- ☑ It maintains state of art strata control & monitoring systems.
- ☑ Life cycle management of the equipment along with world class Safety, Health & Environment standards.

Underground Mine Development

- Drivage of twin inclines for intake and transportation - each approx. 1000 m.
- Development of roadways using Bolter Miner technology.
- Rehabilitation, widening and heightening of existing underground workings.

Shaft Sinking & Vertical Access Development

- Sinking of shafts for return airways, material transport, cable routing, and pipeline installations.
- Construction of haulage foundations, haulage rooms and direct haulage installations (150 KW)

Coal Extraction Mass Production

- Extraction of coal using state-of-the-art Longwall systems.
- Deployment of PSLW technology ensures a minimum guaranteed production of 2.00 MTPA.
- Use of mass production equipment like Road Header, Bolter Miner, Shuttle Cars, and Feeder Breakers.

Conveyor-Based Material Transportation Systems

- Laying, operation, and maintenance of multi-stage conveyor belts.
- Complete, turnkey handling of coal transport from underground to surface.

Development of Surface Infrastructure

Turnkey Underground Mining Solutions

- Complete project execution, from development to extraction and delivery.
- End-to-end manpower, engineering supervision, machinery deployment, and safety compliance.

Our Clients & Partners

Overview of Clients

Hilltop has forged enduring relationships with several of India's largest and most respected public-sector enterprises. The company, through consistent delivery, safety compliance, and operational excellence, has gained the trust of organisations across mining, power, and metal sectors, further building its reputation as a dependable national mining solutions provider.

Bharat Coking Coal Ltd. (BCCL)

Mahanadi Coalfields Ltd. (MCL)

Western Coal Fields Limited

Western Coalfields Ltd. (WCL)

NTPC Ltd.

HINDUSTAN ZINC
Zinc & Silver of India

Hindustan Zinc Ltd.

Steel Authority of India Ltd. (SAIL)

HHPL powers India's mining future with reliable execution, advanced equipment, and visionary leadership, delivering large-scale contracting excellence and sustainable growth across sectors as the trusted flagship of the Hilltop Group.
